

Clearcreek Road Department

Monthly Report

November 2025

In November, Road Crews repaired a sinkhole in Hunters Crossing. During the repairs, they discovered the sinkhole was created by a water line trench settling beneath the roadway. Crews removed the mud and backfilled the area before paving to prevent future issues.

Road Maintenance contracted Ace Tree Service to complete trimming on Weisenberger Road and begin work on Riley Wills Road.

Throughout the month, crews worked to service the snowplow trucks in preparation for winter.

After receiving notice of water runoff and subsequent freezing on the roadway, crews cleared a ditch on Old Woods Court in Stone Ridge.

Getting a head start on projects scheduled for 2026, crews began filling transverse cracks on Station House Way. These repairs were completed using six skids of mastic patch.

The first snow event of the season occurred on 11/26/25, resulting in several inches of snow. Crews applied salt to township roadways.
