Concerning the request for landscaping to be placed between the Temple of Praise property, and the parcel owned by Mr. Orville Wright.

We are asking that this not be enforced upon Mr. Wright's property as it could create possible issues for both land owners. We feel it would interfere with the security systems/cameras of both properties creating issues in equipment placement. Any interference with the security of our buildings would be a serious matter that we ask you to consider.

Mr. Wright is an asset to our property, he helps to maintain security as well as any other needs we may have. We feel a barrier between the two properties is not needed.

Thank you and God Bless

Alan Chilton
Chairman of Board
