Subject: Pekin Comments

Jeff,

I talked to Larry concerning the Pekin property.

Larry stated that Larry had a conversation with the owner on the phone that appears to match the items we discussed this morning on the phone.

Larry directed him to submit plans to the WC Building Department but we have not received any plans or sent written comment on them.

Hope this helps.

Thanks,

Jeff

Subject: Event barn on Pekin

Good morning,

I wanted to clarify the agricultural portion on the proposed event barn location. I just spoke with Jim Kendrick and he stated that he never intended to stop the crop planting that is currently taking place. When we were speaking earlier he mentioned having that crop planting stopped and I assumed that it was beginning immediately. I am completely truthful about things so I mentioned that in our report because that is what I thought I heard.

I apologize for the confusion but apparently I was the one confused. Crops will be planted per usual.

Sincerely,

Tim Huffman
